Wheels

Pro-Par wheels are constructed of high-quality materials and designed for superior reliability and durability.

- **Aluminum Wheels**
 - Made from 6061 T6 high-strength aluminum
 - One-piece rotary forged
 - Machine finish that looks close to polished
 - Valve Stem Pre-Installed
 - Pre-stressed aluminum for increased durability
- **Steel Wheels**
 - 3-coat protection (zinc phosphate pre-treat, e-coat primer, durable white powder coat)
 - Meets & exceeds SAEJ267 fatigue test
 - Complies with DOT, Tire & Rim Assoc. and SAE requirements
 - Valve stem pre-installed
 - Protective rim guards to prevent damage during shipping
